

Intragovernmental Transactions Project

The “Big Picture”
February 21, 2003

What Is It?

Realization of a new vision -

“Electronic acquisition between federal agencies that features consistency in the business process, standardization in the data architecture, improved decision support information, and high quality financial data”

What Are The Goals?

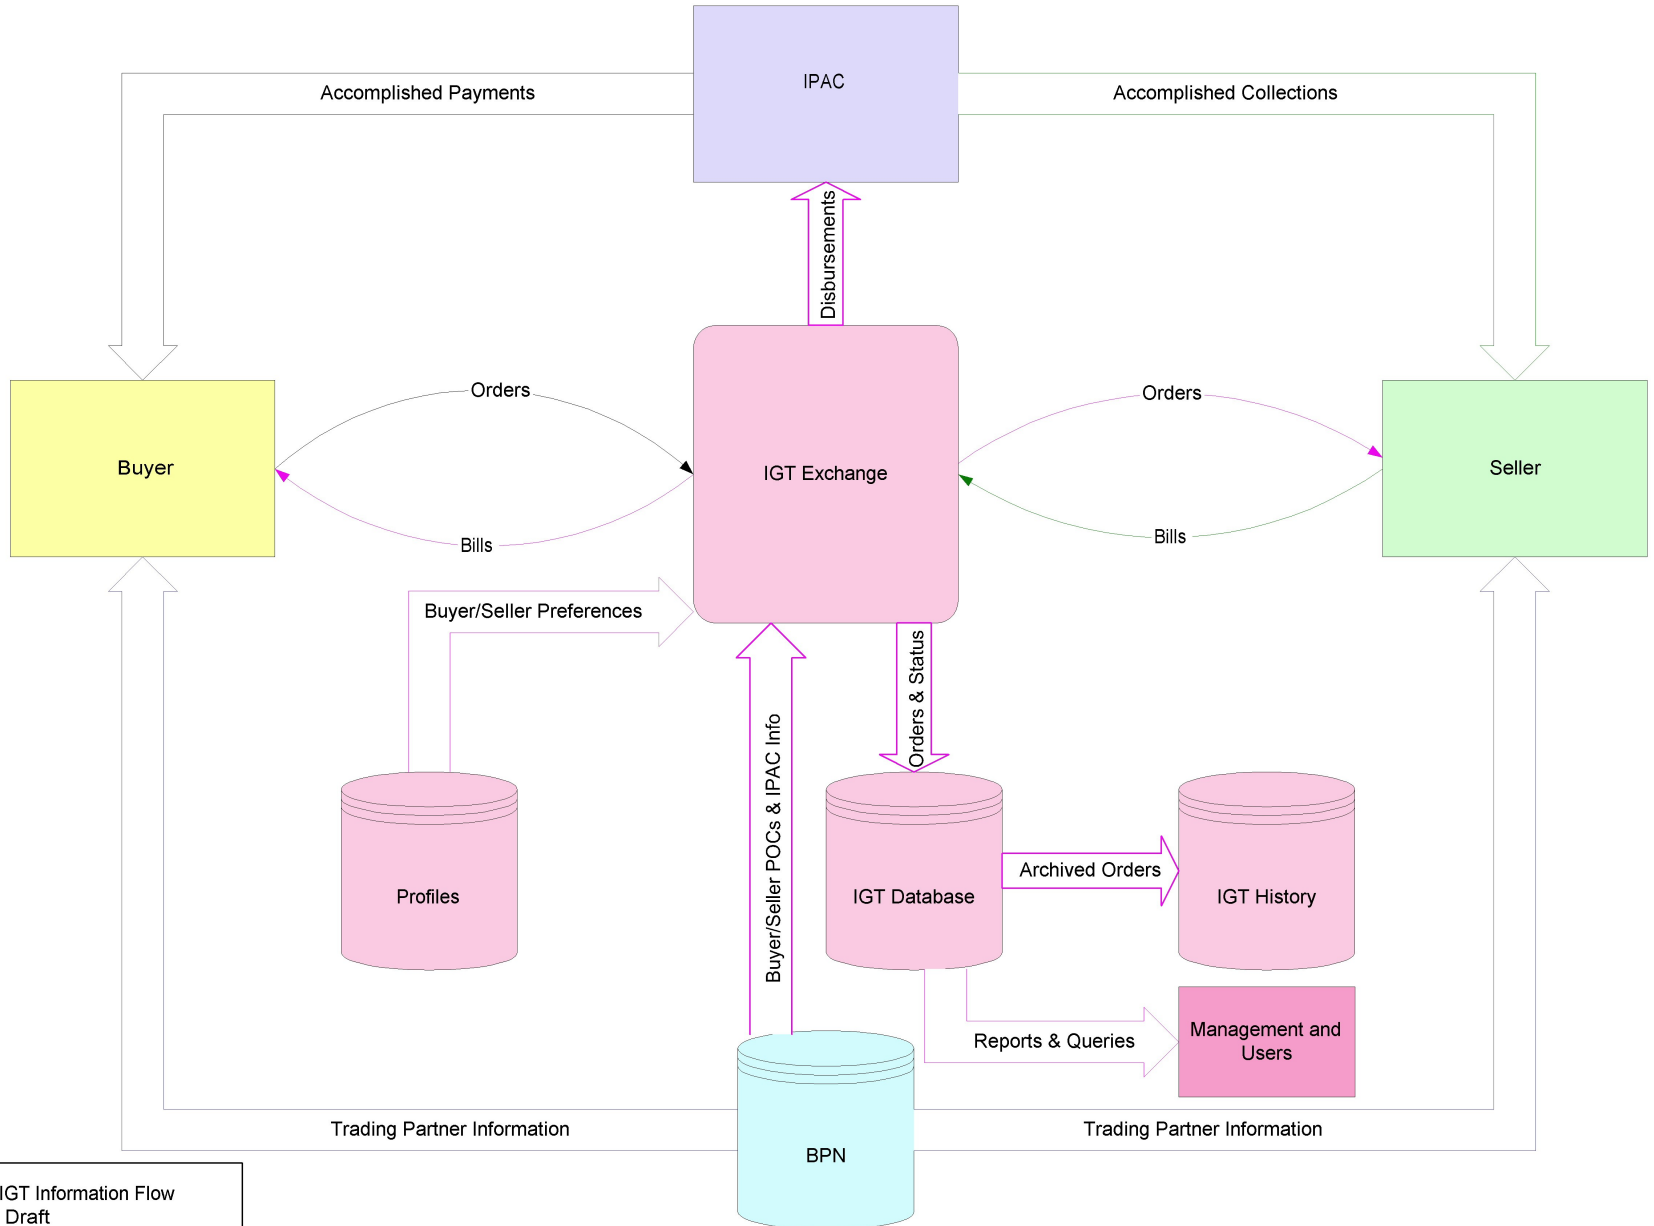

- Apply standards to an undisciplined process
- Use technology to improve data management
- Use technology to make information readily available
- Provide a tool for reconciliation and elimination of intragovernmental transactions

Who Are The Driving Forces?

- Director, OMB
- Comptroller General, GAO
- Secretary, Treasury
- Deputy Director for Management, OMB
- Managing Partner, Financial Management and Assurance, GAO
- Fiscal Assistant Secretary, Treasury
- House and Senate Oversight Committees

Intra-Governmental Transaction - Information Flow

How Will We Get There?

- Use Simplified Acquisition as model for the process
- Define data standards to support acquisition life cycle, financial reporting, and elimination
- Use BPN registration process to capture data on federal buyers and sellers
- Reuse existing technology

Where Are We Now?

- Business process rules and data standards issued on 10/4/02
- Initial BPN registration completed for all 24 major agencies and many small agencies
- Systems being modified for prototype testing to start in Spring 03
- Prototype testing team assembled and meeting on regular schedule

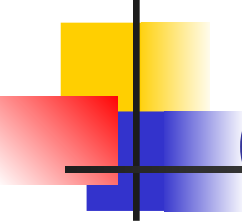

Who Is Involved?

- BPN Registration Partners
 - DLA-CCR Program Office
 - Integrated Acquisition Initiative
- Prototype Partners
 - GSA-PBS, GSA-FTS, DOI-NBC, DOC-PTO, NSF
 - Treasury-IPAC Team
 - Integrated Acquisition Initiative
 - DON-NECO Program Office

What Will Happen Next?

- Test concept with operational capability
- Live mode on Oct 1, 2003, for certain agencies and successfully tested transactions
- Continue to test in the prototype lab to expand number of agencies and types of transactions

Who Will Answer My Questions?
